

# Genome Skincare/Altero Project

- Genome Skincare, a revolutionary skincare product company hired faceLift Design to build their corporate ecommerce web site.
- Jose, our lead designer, built an easy to navigate web site that has been integrated with a third party shopping cart component.
- This site can be viewed at [www.genomeskincare.com](http://www.genomeskincare.com)
- faceLift Designs also created a new ecommerce web site for Genome Skincare to accompany their new infomercial highlighting Altero, their flagship product – this site, [www.altero.com](http://www.altero.com).
